

Meeting Agenda 3

Tuesday Feb 24th, 2025

Progress since the previous checkpoint

- Students page done fully
- Export created but not functional
- Add created and functional
- Login and signup created but not functional
- Search and categories working.
- Help page done
- Profile page done but can't change information yet.

Upcoming goals until the next checkpoint

- Rework data structure and fix adding accordingly
- Create profiles and roles for signing in.
- Hide data from users until logged in
- Have pages be role specific

Challenges impeding your future progress

- Data exporting not working need to research more on how to get it to be functional
- Have data exporting work with my user stories and be more specific

Changes to your milestones (if any)

- I need to rework my milestones completely. I have a brain dump that I created that revisits goals and what the purpose of the app is and what I have time for.
