Sign in / Sign Up

- Html page created   (HTML / css)
- Basic Js done
- Create users database

- Post → sign up .

- Get → login
- Assign roles.
    - Admin (pages / privleadges next page)
    - Staff (pg 2)
    - Parents (pg 3)
- encrypt password

Admin pages (privledges

- check in
- students
- export
- Add student
- profile
- Help
- Delete students
- create classes

- EVERYTHING

- create semesters

Staff pages / privleadges

- check in
- Students
- Export (only current classes)
- profile (can't change Role)
- Help
-

Parents

- Profile (can't change role)
- Manage students (their kids)
- Add students
- Help page (Diff. page for parents)

Side note: Should I have parent accounts or should Admin / staff add students?

Parents have to put in the information in when they register do we make them reg. Again?
